Pricing

www.LadySword.com

info@LadySword.com

This document contains prices for some common programming and design tasks.   It does not include all of our services, but can give you an idea of what it will cost to have one or more changes made to your site.   If you don't see what you are looking for, please don't hesitate to contact us. We can give you a free consultation.   NOTE: We also do complete overhauls of sites, and convert sites to be **RESPONSIVE**. We also design mobile apps such as Android, iOS, or Windows Mobile. If you are interested in any of these, please contact us for a free consultation.

Programming Prices

We can add a Contact Form, implement an e-Commerce shop, add Javascript functions or modules, implement User Authentication (password protection), or install a script or template. These are only some examples of how we can help your business. The below prices will be used as guidelines to determine project cost. In the event the customer asks for additional changes after a quote has been given, total cost of project may increase. In such cases, the customer is responsible to ask for additional quote(s), if they desire them.
